## DELEGATES ADJOURN IN ORDER TO GIVE THEIR MINDS REST

All Peaceful and Se-  
rene at Adjourn-  
ment Time

### MUCH GOOD NATURED JOSHING

(By The Associated Press)

SPRINGFIELD, Dec. 9.—Even if a reaction occurs in the incoming general election, and no additional appropriation is made for constitutional convention work, the task of drafting the new state basic law will proceed without delay next September, President Charles E. Woodward of Ottawa declared tonight.

While President Woodward and other delegates have no doubt that the new legislature will provide funds for the carrying on the work they believe no unforced reactionary movement can block completion of the job. More than \$200,000 remains of the original appropriation of \$600,000 but this money will revert back to the state purposes if not used before January 30, but not before adjourning today until September 6, 1921, the convention proceeded itself from financial embarrassment next fall by empowering the president to call a special session of the delegates anytime he deems best.

Everything was peaceful and serene tonight quiet contrary to last night due to the downstate decision to propose and adopt a compromise proposition to re-district the state and allow Chicago two instead of one judge on the supreme court bench. There was no outward evidence of the bitterness between the two factions of the convention tonight which was so markedly noticeable on the floor during yesterday's stormy session when Chicago and downstate clashed over the judiciary report. There was much good-natured joshing between delegates on both sides as they prepared to depart for their homes tonight in preparation of the nine months' vacation, deemed advisable that they "might rest their minds."

**Sneed Files Report**

At the last minute before adjourning, Delegate William J. Sneed of Herrin, filed the report of the committee on industrial affairs and labor. Its provision read as follows:

"The labor of a human being is an attribute of life, and is not property. The right of workmen to organize with trade and labor unions, and to speak thru representatives, shall not be abridged. The right of any workman to quit employment, whether signed or in contract shall not be abridged. Acts to induce others to quit employment or to refrain from working, by peaceful persuasion, picketing, assemblage or the payment of strike benefits, shall not be held unlawful."

It was popular opinion among downstate delegates that the Chicago-downstate state is clean again and both cliques are in position to renew their work next fall with no traces of the ill feeling that has been apparent during the past two weeks. Practically all proposals had passed without reading up to time of adjournment and it is believed thru absence of long debates when measures come up for second reading and in final amendment work of finishing the proposed constitution will be materially speeded up when the delegates convene next fall.

## FIVE PAY PENALTY OF CRIME AT SING SING

Go to Electric Chair for Murder  
One a Boy of Twenty Father  
of Three Children.

(By The Associated Press)

OSSENING, N. Y., Dec. 9.—Five convicted murderers, the youngest a boy of twenty years and the father of three children, were put to death in the electric chair in Sing Sing prison here tonight, after an eleventh hour attempt to obtain a reprieve or a stay of execution had failed.

Four of the men—James P. (Bull) Cassidy, Joseph Milano, Charles McLaughlin and Joseph Usefof—were convicted of slaying Otto Fiala, an elderly Bronx subway ticket agent two years ago. The fifth, Howard Baker, paid the penalty for murder of William Daggett near Rochester, N. Y., in September 1919.

## BRITISH FAIL TO GRASP OPPORTUNITY

(By The Associated Press)

Hough Green, England, Dec. 9.—Arthur Henderson who has just returned from Ireland, where he went on a trip of inspection with the labor commission said in an address here tonight that if British statesmanship was not equal to the opportunity which he now was convinced was open, a hopeless situation so far as Ireland was concerned was bound to arise. It was impossible for him to say, to exaggerate the deplorable conditions prevailing there.

## BILL TO PROHIBIT IMMIGRATION FOR TWO YEARS ASSURED

Supporters of Such Legisla-  
tion Win all Preliminary  
Skirmishes

### PARTISAN LINES ELIMINATED

(By The Associated Press)

WASHINGTON, Dec. 9.—Supporters of the Johnson bill to prohibit immigration for two years won every preliminary skirmish in the house today with such ease that ultimate passage of the measure seemed to them to be assured.

The only record vote that came during the two hour debate was carried by advocates of restricted immigration, 151 to 9. This vote, taken on adoption of a special rule to limit general debate on the measure to four hours was taken by the bill's proponents as an indication of the attitude of the house.

Opponents of the bill disputed this contention, however. Two of the four hours allotted to general debate had been consumed when the house adjourned late in the day.

Another two hours of general debate will follow tomorrow and then speakers will be allowed only five minutes each.

**Johnson Drafts Bill**

Chairman Johnson of the immigration committee who drafted the bill said the disposition of amendments probably would delay the final vote until Saturday. Debate at today's session was divided by agreement between Chairman Johnson and Representative Raker, Democrat, California, who led the forces friendly to the bill and Representatives Siegel, Republican, of New York and Sabath, Democrat, of Illinois, leaders of the opposition.

Partisan lines disappeared during the debate. Apparently by coincidence, the leadership divided itself equally between Democrats and Republicans one member of each party leading the forces for and against the bill.

## UNEMPLOYED IN MICHIGAN ARE IN ACTUAL DISTRESS

Will Ask to Have Public  
Work Started for  
Relief

### NO IMMEDIATE RELIEF IN SIGHT

(By The Associated Press)

JACKSON, Mich., Dec. 9.—Half of the unemployed men in Michigan, estimated to number nearly 200,000, are "in actual need of work to avert suffering," was the conclusion reached at a meeting here today of managers and secretaries of manufacturers and employers' associations of a dozen industrial cities of the state.

Resolutions were adopted calling upon the governor and mayors to at once start work on contemplated public improvements in an effort to furnish relief.

Indications were, it was said, that a revival of industrial activity was not in immediate prospect. The automobile industry, according to speakers was apparently the hardest hit. John L. Lovett, manager of the Michigan Manufacturers' Association told the conference that Detroit manufacturers did not expect their business to return to normal for more than a year.

"We cannot expect to see any wide resumption of work by factories generally for two or three months," he added.

## GRANDMOTHER KILLS CHILDREN

(By The Associated Press)

Knox City, Mo., Dec. 9.—Mrs. James Jett, aged 45 living near this place cut the throats of her two grand children, Harold and Nellie Hamilton, aged 8 and 3 respectively, and then cut her own. The children were dead when found by their father, Mace Hamlin, and it is expected that the grandmother will die. The mother of the two children died several months ago and this morning the father went to the home of the grandmother and asked her to stay with the children while he came here, it is thought that worry over her daughter's death caused Mrs. Jett's mind to become deranged.

## TIDE OF MARKET HAS TURNED

(By The Associated Press)

New York, Dec. 9.—"Indications are that the tide of the market has turned," said Stanley Sweet, official of a large overall concern today in an address before the semi-annual convention of the International Association of Garment Manufacturers, "and that the manufacturers should make cautious preparations for revival after January 1," he also said.

## PAPAL SECRETARY ASKS HOSTILITIES TO CEASE

(By The Associated Press)

Flume, Dec. 9.—(By The Associated Press.)—Cardinal Gasparri, the papal secretary of state has written a letter to the mayor of Flume advising a settlement of the controversy between the forces of Gabriele d'Annunzio and the government without bloodshed.

## FARMERS OF THE UNITED STATES FACE NEW ERA

Optimism Keynote of  
Speakers at Farm  
Congress

### HERBERT HOOVER SENDS LETTER

(By The Associated Press)

KANSAS CITY, Mo., Dec. 9.—Farmers of the United States face a new era which will be marked by a steady improvement in marketing conditions, despite the present discouraging low price of farm products, speakers declared today, at the opening session of the fifteenth annual international farm congress.

Confidence in the future of the farming industry was expressed and farmers were warned of the danger of cutting production. Marketing of products on hand rather than future production plans drew the principal discussion at the first session of the congress.

Condemnation of conditions which brought about the decline in prices of farm products was voiced by various speakers. Transportation was blamed by some for inability to market products when prices were higher and board of trades generally were denounced for contributing to falling prices.

"Despite calamitous low prices a real era for the farmers is at hand," declared Dr. E. O. Lyman of Utah, vice-president who directed the meeting in the absence of Senator Arthur Capper of Kansas, president. "I believe low price conditions are temporary, and emerge a greater comprehension of the nation's extent and richness," said Dr. Lyman. "Instead of moping now the farmers should realize his virtual deliverance from isolation," he said, pointing to improved transportation and communication which he declared would result in a contact, "that means advancement for the farmer and country."

Warning farmers of the danger in limiting production, Dr. H. J. Waters, a governor of the congress and former head of the Kansas state agricultural college said the marketing situation as he saw it was "one that would improve, not go further in the mire. He declared present apparent surplus in American farm products did not constitute a real surplus."

**Hoover Sends Letter**

A letter from Herbert Hoover former food administrator was read to the convention outlining what Mr. Hoover characterized "the major needs of American agriculture. His suggestions included:

"Peace with Europe and participation of the United States in preserving peace that the economic life there may revive and again restore a demand for our surplus."

The erection of international credit machinery by which we could enable Europe to buy our surplus pending this recuperation.

"An abolition of consolidated buying, and this control of our farm prices by European governments."

## WILL WIND UP AFFAIRS OF PACKING COMPANY

(By The Associated Press)

ROCKFORD, Ill., Dec. 9.—Court action was started today aiming at the winding up of the affairs of the farmers' co-operative packing company, the concern owning packing plant located just south of this city.

Attorney William D. Knight was appointed receiver of the company by Judge R. K. Welsh of the federal court at the request of C. Colton, a stockholder of the corporation and was ordered to take charge of the books and all assets of the plant. The bill asking for the appointment of a receiver sets forth that the corporation was organized with a capital stock of \$400,000, of which \$310,000 is alleged to have been paid into the enterprise. The number of stockholders runs into the hundreds as no one was permitted to purchase more than \$500 worth of stock.

## HAT CONTEST AT GRAND A SUCCESS

The hat contest scheduled to take place at the Grand theater Thursday evening was a decided success, causing much merriment. Mr. Lashman, of Illinois College and Miss Mabel Cox, were the winners of the contest and the hats which were furnished by the Herman Millinery. Mr. Lashman appeared dressed as a maid of sixteen.

## WOULD HELP PEOPLE OWN HOMES

Washington, Dec. 9.—The government thru its postal savings system would be authorized to advance loans for the construction and purchase of homes by a bill introduced today by Representative Kelley, Republican of Pennsylvania.

## Bulletins From Here and There

(By The Associated Press)

OMAHA, Dec. 9.—George W. Holdridge of Omaha today announced he would retire Dec. 31 as general manager for the Chicago, Burlington & Quincy lines west of the Missouri river, a position which he has held for the past thirty-four years.

PEORIA, Ill., Dec. 9.—Conrad E. Sprens, vice president of the Chicago, Burlington & Quincy railroad, delivered an address here tonight before the Transportation Club. Hundreds of railroad officials from all parts of the country attended.

TOLEDO, O., Dec. 9.—Suspension of work at the plant of the Auto-Lite Company, a subsidiary of the Willys-Overland Company December 15, was announced today by C. O. Minniger, president of the company.

SPRINGFIELD, Ill., Dec. 9.—Local retail grocers today announced reduction in prices of fruit, produce and poultry. The biggest decline was in lemons, which have been selling for 30 and 35 cent per dozen and which were reduced to 15 and 20 cents. A noticeable drop also was made in the prices of chickens, ducks and turkeys. Creamery butters dropped three cents and eggs five cents.

## LIFE INSURANCE IS DISCUSSED AT BIG MEETING

Talk of Its Relation to  
American  
Life

(By The Associated Press)

NEW YORK, Dec. 9.—Life insurance in its relations to many phases of American life was discussed today before insurance executives from nearly every state in the union and Canada at the fourteenth annual convention of the association of life insurance presidents.

There will be no substantial reduction of taxes in the near future said Representative Nicholas Longworth, member of the house ways and means committee which frames revenue measures. He predicted that congress would make a cut approximating a billion dollars from estimates aggregating more than four billions presented by the legislative departments. This, however, would not permit any general reduction in taxes.

Hayes F. Fiske, president of the Metropolitan Life Insurance Company said that now the companies "have the enormous sum of two billion, eighty two million dollars invested on bond and mortgage throughout the country almost equally divided between farms and cities and have made commitments for many millions more."

This, he said, refuted the criticism that the companies had not done their duty in responding to the housing shortage.

## NOBEL PEACE PRIZE IS AWARDED TO PRESIDENT WILSON

Leon Bourgeois Also Re-  
ceives One of the  
Prizes

WILL BE  
AWARDED TODAY

(By The Associated Press)

CHRISTIANIA, Norway, Dec. 9.—The Nobel peace prizes respectively for 1919 and 1920 will be presented tomorrow to Leon Bourgeois, president of the French association for the society of nations and Woodrow Wilson, president of the United States.

Each prize amounts to 134,000 Swedish kroner, and will be handed to American and French ministers who will formally thank the committee. Albert G. Schmedeman, the American minister to Norway, will read a message from President Wilson on the occasion of the presentation of the 1920 prize.

Formal announcement of the awarding of the prizes was made today by M. Loveland, chairman of the Nobel committee. The fact that President Wilson would receive the 1920 prize became known earlier in the week. At that time it was not known who was to be awarded the 1919 prize. The Swedish kroner is worth about 19.25 cents.

## WILL FIGHT CLOTHING MANUFACTURERS

New York, Dec. 9.—Unqualified support of the needle trades alliance launched here today with a membership of nearly 500,000 was pledged to the thousands of idle clothing workers in Boston and New York in their fight against the clothing manufacturers' association. The attitude of the Boston and New York clothing manufacturers in breaking off relations with the union and announcing the return to the piece work system, was condemned as an attack at the very foundations of trade unionism and a move "to bring about a return to the sweatshop system."

## WILSON'S REFUSAL IS DISAPPOINTMENT TO PEACE LEAGUE

Would Keep in Touch  
With United  
States

### TRYING TO SPEED WORK

(By The Associated Press)

GENEVA, Dec. 9.—President Wilson's negative reply to the league of nations' invitation to name an unofficial delegate to cooperate with the commission to be appointed by the assembly to discuss disarmament has caused great disappointment here.

The chief desire of the assembly seems to be to maintain as many points of contact as possible with the United States and it was thought the disarmament investigation afforded an opportunity of which President Wilson could take advantage without committing himself.

Mr. Wilson's decision regarding the Armenian boundaries have not been received here. It is thought in league circles that his reply has more likely been sent to London or Paris since it is a matter for consideration by the supreme council of the allies rather than by the league of nations.

Canada Scores Again

Canada, whose delegation has made a great impression on the assembly scored again today when it secured elimination of the provision in the technical committee's report for permanent finance, transit and health commissions. The assembly impressed by the growing expenses of the league and the international labor bureau accepted the Canadian view.

The Canadians argued it was preferable to work with temporary commissions having consulting power only until it is possible to see more clearly just what may be done with specialized organizations.

The prospects of a prolonged stay in Geneva are beginning to worry the delegates and officials of the assembly. All the members of the delegations are making every effort to increase the speed of their work but with little success thus far.

After two days spent entirely upon the report of the technical committee President Hyman of the assembly today made an earnest appeal to the delegates to cut their remarks short.

President Hyman's hold over the heads of the delegates the menace of two sessions daily and advancing the hour of the morning session by half an hour. A number of the delegates have arranged to leave Geneva Friday or Saturday of next week. Meanwhile there remains to be disposed of the report of the committee on the admission of new states, and also disarmament, mandates and the international court, besides a number of smaller questions.

## FOREIGN RELATIONS COMMITTEE TO MEET

Will Discuss Important Questions  
—Secretary Davis Will Appear  
Before Committee.

(By The Associated Press)

Washington, Dec. 9.—A special meeting of the senate foreign relations committee, was called for tomorrow by Chairman Lodge late today to obtain information regarding the disposition and present status of the communications before the international communications conference.

Acting Secretary of State Davis conferred today with Chairman Lodge and will appear before the committee tomorrow in executive session. It was mentioned that Mr. Davis today had before Senator Lodge several questions pending before the communications conference relating to disposition of seized German cables.

Mr. Davis' information was regarded of such importance and of interest to the other members of the committee that tomorrow's special meeting was called. No witnesses other than Mr. Davis are expected to appear before the committee.

## LEGION POST RE-ELECTS COMMANDER

Bloomington, Ill., Dec. 9.—Members of Louis E. Davis Post No. 56 of the American Legion established a post here tonight when they re-elected their present commander, Harry L. Howell, to serve for another year.

Under the legion constitution the retiring commander automatically becomes a past commander. Dr. Howell now holds both of these honors at the same time.

## OLIVE THOMAS CASE OFFICIALLY CLOSED

Paris, Dec. 9.—Magistrate Barnart, after considering all the facts in connection with the death of Olive Thomas, (Mrs. Jack Pickford) the moving picture actress which occurred here last September, has decided that there is no case to proceed with.

## START INQUIRY TO DETERMINE EXTENT OF UNEMPLOYMENT

Government Will Make Sur-  
vey of All Large  
Cities

### DIVIDE COUNTRY INTO DISTRICTS

(By The Associated Press)

WASHINGTON, Dec. 9.—An inquiry to determine the extent of unemployment in sixty five principal industrial cities of the country was announced today by the department of labor.

Decision to this effect was made public after Secretary Wilson had conferred with nine regional directors who have been appointed to conduct a survey of conditions in cooperation with the industrial cities of the United States employment service and with other state and federal agencies.

The industrial classification of the census bureau will be utilized in making the survey which will take into consideration only industrial concerns with a minimum of 500 employees. The first results are expected to be ready for announcement by January 15, and it is the intention subsequently to issue unemployment statistics bi-weekly.

Officials would make no estimate today of the country's idle workers, although they expressed the opinion that the trend toward unemployment on a large scale had been marked during the last few months. Recently, it was said, the employment had been placing from 45,000 to 50,000 persons in positions every month. Among the nine regional directors and their nine divisions for the purposes of the survey, as announced, were the following:

G. H. Brund, assisted by John M. Sullivan, East North Central District, headquarters, Chicago; states of Ohio, Illinois, Indiana, Michigan and Wisconsin.

E. F. Feder, West-North Central District, headquarters, St. Louis; states of Minnesota, Iowa, Missouri, North Dakota, South Dakota, Nebraska and Kansas.

## GOVERNMENT MAY PUT AIR TRAFFIC IN FEDERAL CONTROL

Would License Pilots and  
All Air-  
craft

### WANT LARGE APPROPRIATION

(By The Associated Press)

WASHINGTON, Dec. 9.—Creation in the department of commerce of a bureau of aeronautics to be headed by a commissioner of air navigation, charged with federal regulation of commercial air navigation, the licensing of pilots, aircraft and landing fields and all other aviation details not military in character is advocated in the sixth annual report of the national advisory for aeronautics submitted to the president and congress today by Charles D. Walcott, the chairman.

Encouragement of commercial aviation by the government is characterized as pure self-defense, the only alternative to such a policy, the report says, is the creation and maintenance of a powerful standing military air service mainly in time of war, a policy the nation cannot afford.

An appropriation of approximately \$190,000,000 is asked for by the committee for the fiscal year 1922.

## PEACE TREATY IS REPORTED SIGNED

Turks Take All of Armenia's Armaments—Soviet Set up in Erivan.

(By The Associated Press)

Constantinople, Dec. 9.—(Havas.)—A peace treaty between Armenia and the Turkish nationalists is reported to have been signed at Alexandropol during the night of December 23. Under the treaty Armenia's territory will be reduced to only the region of Eritovan, the capital, and Lake Kokcha, excluding Kars and Alexandropol.

The treaty provides that all Armenia's armaments must be given to the Turks with the exception of 1,500 rifles, 26 quick firing and three cannon which the Armenians are permitted to keep. A Soviet has been organized in Erivan according to the reports and a complete accord exists between Soviet Russia, Azerbaijan, Armenia and the Turkish nationalists.

## AGED RESIDENT OF MEREDOSIA PASSED AWAY

Meradosia, Dec. 9.—Mrs. Harris Blanford passed away at two o'clock this afternoon at her home in this city, following an extended illness. The deceased was seventy-six years of age and was one of the well known and long time residents of the community. She is survived by two daughters, Mrs. Richard Beau-champ and Mrs. Nettie Shannon, both of Meradosia. Funeral arrangements have not yet been completed.

## WIDOW OF LORD MAYOR TELLS OF HUSBANDS DEATH

Details Hunger Strike  
In the Brixton  
Prison

### PLEA MADE FOR CHILDREN

(By The Associated Press)

WASHINGTON, Dec. 9.—The widow of the late Lord Mayor of Cork, Mrs. Muriel MacSwiney presented to the commission of the committee of one hundred investigating the Irish question her story of the hunger strike in Brixton Prison, London, of her husband and of his death, and the details as she had witnessed them, of attempts by the Irish Republicans to gain freedom for their country. Mrs. MacSwiney concluded her story with the declaration "England shall have no peace, that the world will have no peace until our republic is recognized."

Miss Mary MacSwiney sister of the late lord mayor recalled to add details to the story she told to the commission yesterday added to the declaration of her sister-in-law the assertion that the coming winter would be Ireland's Valley Forge and appealed for American aid, not, she said, for the men and women of Ireland but for the children. "The coming winter in Ireland," said Miss MacSwiney, "will be hard. The British have destroyed our crops, our supplies of food. The men can get on the women can stand the suffering. But it is for the children I plead. We must have help this winter."

**Will Continue Fight**

The widow of the work lord mayor declared that she was no choice for the Irish Republicans but she stood together with the threat and continue the fight for independence. She said it was such a spirit that had actuated her husband to refuse food until death.

"I knew my husband was happy as his physical strength was worn away by hunger for his countenance absolutely radiated peace and contentment," Mrs. MacSwiney asserted. "I was too foolish to plead with him to take food. But I would not, for I never would interfere with my husband in a matter of conscience. It was the decision of his spirit."

Miss MacSwiney expressed the belief that the fatal hunger strike of her brother had greatly benefited the Irish independence movement. She told of the series of telegrams she had exchanged with Premier Lloyd George in an attempt to fix responsibility for her brother's prison sentence and for the treatment he and his relatives had been accorded by the English government.

**Lloyd George Responsible**

"The result of this exchange of telegrams," she added, "made me feel that Lloyd George was responsible for the death of my brother. I shall continue to feel that way and I shall continue to spread the truth of that situation throughout all of Ireland."

Miss MacSwiney gave an account of what she characterized as "conspiracy between officials of Brixton Prison and the British home office to defeat plans of the family to take the lord mayor's body back to Cork, because she said, "the British feared an uprising and they didn't want any more trouble than they already had."

"We Irish are no domestic problem of England," she said. "We are an international problem. Our ideals, the ideals of all Irish Republicans are the same and my plea to the American people is that you at least give us fair play and justice as for the British stories of the separatist movement do not carry all the facts. We are not divided and we intend that the whole world shall know the truth both of our cause and the misrepresentations of the British."

## SINGS "MISERERE" ON WAY TO DEATH CELL

Chicago, Dec. 9.—Nicholas Viana, former choir boy, whose nineteenth birthday will come to an end a few minutes after 8 o'clock tomorrow morning when he is hanged for murder, gave a farewell concert for fellow prisoners in the jail today. Singing the "Miserere" Viana marched thru the jail corridors enroute to the death cell. "I was convicted of participation in several gang holdups."

The much heralded conference between President Wilson and President-elect Harding did not take place. It seems that a fine point of etiquette was involved—that no formal invitation was issued and that Mr. Harding did not feel disposed to intrude himself upon Mr. Wilson's presence. This incident is really not worth all the newspaper space that it has been given. Congress has shown disposition to ignore practically every point mentioned in Mr. Wilson's message and it is not likely that the president will have any private information to impart to Mr. Harding which would be of extreme value.

It is almost too late to talk about shopping early. Nevertheless there are indications that people are not keeping up with the pace of the last few years in

this matter of early buying Christmas stocks carried by local merchants this year are of generous proportions. There is a great variety of offerings and range in prices is of a kind to suit most any buyer. Certainly the thought of possible lower prices should not deter the Christmas shopper. The indications are that the bottom has been reached in most lines and there can be no further reductions which will have any relationship to holiday purchases.

The spirited warfare that Springfield and Bloomington had over the possible removal of Wesleyan university from Bloomington to the capital city bids fair to be revived, only over another line. The story is started that the Chicago & Alton management is seriously considering the building of extensive shops in Springfield, making that city a division terminal in order to avoid certain heavy expenditures now being made for every time. It is said that such a change would mean practical removal of the shops from Bloomington to Springfield.

In the latter city the business men can be relied upon to raise a big fund in the effort to make the removal a fact and no doubt Bloomington will match its generous Wesleyan program and organize a big fund to keep the shops in Bloomington. It will be an interesting city contest.

## THE CON-CON AND ADJOURNMENT.

There may be good sense and sound judgment behind the proposal of certain delegates to the constitutional convention to adjourn to a date many months in advance, but to the average citizen it does not look that way. The convention has been in session month after month and now to hastily adjourn because of sharp differences of opinion looks like child's play.

In business and political relations when men sharply disagree they have to compromise. An explanation to "the folks back home" that a delegate could not get convention approval of this or that proposal will sound much better than the explanation that the delegates could not agree and therefore adjourned for a year or so.

that railroad fares even on the present basis, are not nearly so high as in Europe. The statement was issued, it is said, to correct a somewhat prevailing opinion that travel in the old countries is much cheaper than in the United States. It is not to be disputed that equipment provided the traveling public here is quite an improvement over that in use abroad, but most people have had the idea that the rates now prevailing were as high or higher than those in force overseas.

But somehow there is no special satisfaction in comparing rates between the two countries, for living conditions are so very different and the ideas prevailing with reference to travel are probably just as different. Railroad rates here can show immense increase in cost of operation and for equipment. All that remains is for the public to be assured that the roads are not earning more than a fair return on their investment and there will be little kicking about the charge for passenger fares.

Incidentally these passenger increases are insignificant by comparison with the higher cost of moving freight.

## "WE HAVE NOT FORGOTTEN."

The movement of the American Legion in their "We have not forgotten" campaign is worthy of support. The Legion proposes in this way to see that every disabled ex-service man is given a full share of Christmas cheer. There is no denying the fact, and the ex-service men know it all too well, that it is much more difficult now to ensure over the loyalty and patriotism of the soldiers than it was in the war time or the immediate days thereafter. It's really time for some reformation along this line—some action to keep some of the war time memories green. There are things to indicate that all of the governmental machinery for the care of disabled soldiers is not working smoothly, and so this effort on the part of the ex-service men to do something for their less fortunate comrades is indeed well worthy of support.

Rippling Rhymes  
By Walt Mason

**TIPS.**

I always tip the waiter who blithely brings to me my slice of alligator, and cup of sparkling tea. I don't believe in tipping, in principle it's wrong; I've done a lot of yipping this moral line along. And doubtless soon or later abolished it will be, but now I tip the waiter who brings my masher to me. I see my neighbors waiting a long time for their meals, the manager berating, and making frantic spouts. Their words are fierce and gripping, they thunder and they screech; they don't believe in tipping and practice what they preach. But I, who tip the waiter, am pushing through my face an egg and boiled potato, with tact and princely grace. My grub is cooked to please me, my partridge and my owl, and there is none to freeze me with most forbidding scowl. And no one spills the gravy, the salad or the prunes, upon my whiskers away, or on my trousers. I am an ardent hater of tipping as a graft, but I shall tip the waiter until I'm dead or daft; for I like prompt attention when I demand a stew, a hash all spiced with gentian, a goulash or ragout.

## Funerals

**Doyle.**

Funeral services were conducted at 2 o'clock Thursday afternoon at the residence of the parents, Mr. and Mrs. E. T. Doyle 3 miles northwest of Murrayville, for their small son, Robert Benjamin Doyle, who died at 6 o'clock Wednesday morning after a six days illness. Max C. S. McCulloch was the officiating minister. Burial was in Murrayville cemetery.

Music was furnished by Mrs. Iva Short and the Misses Stella Cunningham, Florence and Lucille Short.

The floral offerings were in charge of Misses Alma Connolly, Velma Hayes, Harriet Dobson, Thelma Solomon, Agnes Garvin and Frances Clark. The pallbearers were Masters Kenneth Cade, Hugh Edward Osborne, Anthony McCabe and Ralph White.

## Montgomery.

Funeral services for Mrs. Mary Montgomery were held at 9 o'clock Thursday morning at the Church of Our Savior, Rev. Father E. F. Kuntz officiating. The remains were laid to rest in Jacksonville cemetery. Floral tributes were cared for by Miss Mabel Dunavan, Mrs. Thompson and Mrs. Ray Walker.

The pallbearers were: Andrew McNamara, Dennis Earley, James Trahey, Charles Hagen, Michael Johnson and Louis Steer.

## Boulware.

Funeral services for Mrs. Pamela Boulware were held from the Christian church in Franklin Thursday afternoon at 2 o'clock in charge of the Rev. Mr. Kuntz assisted by the Rev. Mr. Sherman. There was a large gathering of relatives and friends to pay a last tribute of respect to the memory of the deceased.

Music was furnished by Miss Grace Hill, Miss Lou Duncan, Edgar Eador and Edward Seymour with Mrs. Henderson as accompanist. The flowers were cared for by Miss Katherine Wright, Mrs. Milton Seymour, Mrs. Dorothy Sargent and Miss Miss Kamille Wright.

Burial was in Franklin cemetery the bearers being: Newton Wood, John Gray, Bright Sears, Joseph Wynn, Fred Burch and Edgar Sweet. The honorary bearers were: Lafayette Clayton, J. D. Ralston, James Bond, J. B. Burch, G. J. Dowell and Charles Olinger.

## THIRTY EX-SOLDIERS AT VOCATIONAL CENTER

Work Established at Jacksonville State Hospital Has Practical North—More Men Coming From Other Hospitals.

As previously mentioned, there are 30 ex-service men of the world war now being cared for at the Federal Vocational Board training center, established at Jacksonville State hospital, and in charge of G. T. Ledgerwood, educational director. This is one of a number of centers established by the federal board of vocational training. There are two within the state of Illinois, designed especially for the care of service men suffering from some form of mental disturbance. The center established at Elgin will take care of cases in the Chicago district and in the northern part of the state. The one at Jacksonville state hospital is for the care of the same general type in southern Illinois.

While 30 men are now cared for here, this number will be materially increased before the first of the year, as a transfer is to be made from the hospital at Anna and other hospitals.

The broad purpose of the work is to restore the men to physical and mental health and subsequently to give them vocational training which will fit them to take their proper places in civil life and to become satisfactorily self-supporting.

The work here is now quite well under way with Mr. Ledgerwood directing, but it will not be long until other activities are introduced in the line of both mental and vocational training. In addition to teaching different trades, typewriting, bookkeeping and courses of that kind will be introduced as men are able to qualify for the work. Satisfactory quarters were arranged at the hospital for all of these soldiers and within a short time one-half of a new building will be devoted to their work and study activities. Hospital authorities have arranged for a week of Christmas festivities and the ex-service men will have a chance to enjoy these entertainments.

Those who have visited the hospital and have come to a first hand knowledge of the work in progress are immediately impressed with the fact that the federal board has planned well for this undertaking.

## RECITAL AT THE CONSERVATORY

Last evening a faculty recital was given by Illinois College conservatory in Recital hall. Two new members of the faculty were introduced to the public, Miss Helene B. Sorrells, instructor in the viola department, and Mrs. Fay Foreman, who takes Miss Hezel Bell Long's place in the piano department. Miss Sorrells is, of course, no stranger to Jacksonville, having appeared here many times, very successfully, as violin soloist, and having received her diploma from the conservatory last June. Mrs. Foreman, who is a newcomer in Jacksonville, having lived in Kane, Illinois, for some years, has been a student under Mr. Munger in the Conservatory since 1915 and received a certificate of graduation last June. She has taught most successfully for some years, and still continues to instruct a large class in her home town.

The opening number, the well-known Sonata Pathétique of Beethoven, brought a trying task to Mrs. Foreman, who showed much poise and an excellent stage presence, overcoming the technical difficulties of the Sonata easily, and revealing a genuine musical temperament, particularly in the lovely Adagio. She plays with both thought and expression.

Miss Sorrells used some little-known pieces in both her groups, real novelties to the Jacksonville public. The Chant Negro and the Gypsy Serenade she gave with deep musical feeling and lovely tone. She has grown in power and sureness in the past few years.

The three delightful Rachmaninoff numbers, making up Mrs. Foreman's second group, were a further revelation of her true musical sense, being interpreted with pleasing tone and commendable variety of nuance. She was applauded very vigorously by the audience, being obliged to appear twice after her second performance. She will undoubtedly prove a valuable addition to the Conservatory faculty.

The Contradanzas of Beethoven, first in Miss Sorrells' second group, were played with the necessary humor, and the Valse Bluette of Drigo was most delightfully performed. The last number, The Cerebrake by Gardner, pleased the audience so much that she requested an applause by playing Yost's "A Southern Melody."

The last recital before the Christmas holidays will be one of Advanced Students, and will take place next Tuesday evening, December 14th.

## FINDING MADE IN LIVESTOCK SUIT

Jury Decides Mr. Hembrong Is Entitled to Damages—Stevens Divorce Suit Heard.

In the circuit court Thursday the jury which heard the evidence in the suit of John D. Hembrong against Walker D. Hines and the Chicago & Alton R. R., brought in a verdict fixing damages in the sum of \$538.88. This was a suit relating to a stock shipment, the complainant maintaining that the railroad carrier did not give the stock the proper attention.

In the afternoon the suit of Mrs. Connie Stevens for separate maintenance from her husband, Wesley Stevens, was begun. The complainant is represented by William N. Hairgrove and the defendant by Wilson & Butler. Mr. Stevens filed a cross bill, asking for divorce on the ground of infidelity.

The jury heard the evidence and argument and retired at 5:30 to consider the case. At the Journal press hour this morning a verdict had not been returned. At a previous hearing the jury disagreed. The jurors in the present case are A. E. Curry, Fred Muntman, Casper Blimling, Paul Sheppard, L. B. Seymour, Roy Clark, H. B. Jager, James Pfeil, G. N. Sargent, Charles Howard, Marion Self and Fred DeFrates.

## BAZAR AND SUPPER WAS WELL ATTENDED

Centenary Aid Give Annual Bazar and Supper Thursday—Was One of Most Successful in History of Organization.

The annual bazar and supper of the Ladies Aid Society of Centenary church was given at the church Thursday. There was a large crowd in attendance and the event proved one of the most successful in the history of the organization.

Fancy work, aprons, homemade candy and other things were offered for sale and there was a generous demand for the various articles. The bazar opened at 10 o'clock Thursday morning and beginning at 5 o'clock a turkey supper was served. The ladies of the church are well known for the excellence of their suppers and the one last night proved fully up to the standard.

Mrs. Thomas H. Buckthorne was in charge of the bazar while the members of the Queen Esther society had a candy booth which was tastefully decorated in white and green.

Mrs. Thomas Clampt was chairman of the supper committee and those in charge of the various departments were:

Dining room—Mrs. Joe Stice. Serving room—Mrs. James Kinney.

Deputies—Mrs. A. J. Jones. Mrs. E. L. Kinney is president of the society and it was largely thru her efforts that the affair proved such a success.

A NOVEL PRIZE.

The Chicago Tribune is sending out daily a reporter inco and with him some person to test the courtesy of various people.

One day they sent a dilapidated looking old lady to go the round of the theaters and movies and make rather querulous and unusual requests.

About the first man they accosted at Powers theatre was very polite and kind to them and from him they went to several, some receiving the old lady in a cavalier manner, some not quite so badly but none as well as the first one visited and they went back and handed him the prize, a fifty dollar check.

The young fellow was recently married and that once he called up his wife to tell her the good news.

One day the round of a lot of street cars was made and the most polite conductor was rewarded.

One day, some years since, the writer was in Chicago and wanted to buy four cash fares to New York. He stepped into one city office and found the clerk quite lofty and indifferent so he went right out and bought the tickets elsewhere.

Once he left two tickets to New York at the Nickel Plate city office, the prospective users, two young ladies, to call for them. When the latter appeared the clerk handed over the tickets and then came out and carried the young ladies' suit cases to the station and saw them on the train.

After the party arrived in Europe a letter of appreciation was sent back to that office.

REMOVING SCHMALZ STOCK TO ALLCOTT BUILDING.

Way Age Editor Shows Traffic Is Light Now — Busy Day Coming.

Ship Now! is the advice phatically given by the Railway Age its current issue to every shipper who has any commodities that he can ship at present.

There exists in the United States at the present time," says the Railway Age, "a condition which has not existed before for years except during a few months in 1919. That is that the

Does Something to Do The Business

I tried everything that I heard for the stomach and bowel trouble and bloating, but got no permanent help until I struck Dr. Williams' Wonderful Remedy, and it did the business. My son in Indiana has also taken it and it has done him a lot of good. It is a simple, harmless preparation that removes the harmful mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. **ROADHOUSE HOLDUP MEN ARE ARRESTED**

Quartet Taken by Police at Alton — Stolen Diamond Is Recovered.

Roadhouse, Dec. 9.—Fred, alias "Pug" Ruyle, is believed to have been the directing genius of a restaurant holdup and robbery here at an early hour Thursday morning. Ruyle and three associates said to be residents of Alton entered the Todd restaurant about 3:45 o'clock, commanded the four men there to hold up their hands, then a diamond pin worn by F. M. Todd, proprietor, was wrested from him and \$35 in cash taken.

A few hours later Ruyle and his companions were arrested by Alton police as they left the train there. When notified by telephone Mr. Todd went to Alton, where he identified the pin, which was in the possession of Ruyle when he was taken into custody. He resisted arrest but his attempt to escape from the policeman failed.

When the robbers entered the restaurant they covered the occupants with revolvers and after taking the diamond and money, backed out, and warned their victims not to make an outcry. The holdup took place just a short time before a southbound freight left Roadhouse and the men rode this train to Berdan. There they transferred to a passenger train and their arrest at Alton resulted.

Local police secured blood hounds not long after the robbery was reported and the trail followed by the dogs led to this railroad yards. From various circumstances it was believed that the robbers had gone north and the police in various cities were notified.

**Decline in Traffic.**

The Railway Age states that in the week ending November 27 the total number of cars of freight handled was 797,673. The extent of the decline in traffic which has taken place is shown by the fact that in the week in ending October 23 the number of carloads of freight handled was 1,010,951 or 26 per cent more. These figures show that with the favorable weather existing the railways could handle at least 25 per cent more business than they are now handling.

"The only way it can be made possible for the railways to handle anywhere near satisfactorily their existing facilities the present normal commerce of the country," says the Railway Age, "is for freight to be shipped in something approaching uniform volume throughout the entire year. The time has passed, and will not return again for a long time, when the railways can satisfactorily handle all the freight offered to them if, as was the case in former years, it came to them in only small volume in about eight months of the year and in very large volume in about four months of the year. Shippers must learn that under present conditions they cannot ship just when they want to, but only when they can get cars. If shippers who can ship now do not do so, they will have no just ground for complaint if when a few months hence they want to ship, they are not able to get cars."

**CHRISTMAS BAZAAR AT STATE HOSPITAL**

The Christmas bazaar at Jacksonville State hospital was a decided success. There were extensive offerings of fancy work, toys and bric-a-brac, all made by the patients and offered at reasonable prices. The patronage was liberal and a goodly sum was raised for special entertainment purposes. The state provides money for movies and similar forms of entertainment, but the custom has been established by Dr. and Mrs. Hill and their associates of raising money in this special way for picnics. Fourth of July observances and features of that kind.

There are still a few articles for sale and they are on display at the main office, where any person interested can find them. The hospital authorities greatly appreciate the public interest shown in this event.

Big talk about those new 50c four-in-hand ties at Tomlinson's.

**RETURNS TO HOME CITY**

Arthur Corbin has returned to Jacksonville after an absence of nearly a year. He has been holding a position as porter with the Pullman Co., and had a run on the Burlington from Chicago to Lincoln, Nebr. He liked the railroad position but prefers to remain in his home city.

## WINCHESTER MAN IS VICTIM OF PARALYSIS

Charles Hankins Succumbs Thursday Morning After Second Attack of Paralysis—Sacred Concert at M. E. Church Dec. 19—Other News Notes.

Winchester, Dec. 9.—Many Winchester residents will be surprised to learn of the death of Charles Hankins, which occurred at 6 o'clock Thursday morning at the family home in the northwest part of town. The deceased suffered a stroke of paralysis Sunday, but was able to be out the next day. He suffered a second stroke Wednesday and soon became unconscious, his death following a few hours later as indicated.

The deceased was a son of the late Mr. and Mrs. W. C. Hankins and was a life long resident of Winchester. He was a man of retiring disposition, a kind and devoted husband and father, and his death is a loss not only to the family circle but to the community as well.

Mr. Hankins is survived by his widow and three small children, two daughters and a son. He also leaves two sisters, Mrs. Davis New of Winchester and Mrs. Oscar Claywell of East St. Louis, one sister preceding him in death. Two brothers also survive, Curt Hankins and Harvey Hankins, both of Winchester. The deceased was the youngest in the family.

Funeral services will be held at 2 o'clock Saturday afternoon from the Christian church.

Mrs. J. H. Charlton returned Wednesday to her home in Delhi, after a visit with her brother, Herman Smith and family, and other relatives.

George Stewart was a business visitor in St. Louis Wednesday.

James B. Davis passed away Thursday morning about five o'clock at the home of his son, John Davis, after an illness of five or six weeks. Mr. Davis resided in Scott county. He was in his 84th year and had always engaged in farming during the earlier years of his life, his home at that time being on a farm near Bloomfield.

The deceased is survived by two daughters, Mrs. Douglas Campbell of Winchester and Mrs. Monroe Gregory and two sons, John and James Davis, all residents of Winchester. Mrs. Davis passed away a number of years ago.

Funeral services will be held at 1 o'clock Friday afternoon from the church at Bloomfield.

Those who are to take part in the sacred concert to be given at the M. E. church the Sunday before Christmas have been faithful in attendance at the rehearsals. The indications are that an excellent program will be carried out.

Jacksonville Chapter No. 3 R. A. M. will hold a special convocation this evening at 7 o'clock. WORK. Visiting companions welcome.

W. P. Spillman, E. H. P. John R. Phillips, Secy.

## A PLEA FOR THE CHILDREN

Twelve reasons why the men and women of this community and of other communities should buy-Tuberculosis Seals.

I. Among the 150,000 persons (as stated in a previous article) who are killed each year in the United States by Tuberculosis, there are more than 12,000 children under five years of age.

II. Tuberculosis is a preventable disease. THEREFORE, the nation is not taking the proper care of its children.

III. Government reports show that nearly half the child victims of tuberculosis succumb to tuberculosis meningitis.

IV. It is not true that these children inherited the disease. Science has demonstrated that tuberculosis is a communicable disease, caused by the germ transmitted after birth.

V. Children are particularly susceptible to the disease. More than 50 per cent of all children are infected before they are ten years of age, and the percentage increases until at 15 years it reaches the maximum of from 60 to 70 per cent.

VI. Once the bacilli of tuberculosis have found a lodgement the disease may infest itself at any time in life. It breaks thru the barrier when the system is overstrained, run down, or weakened by illness, or work or worry.

VII. The power of the child to resist the disease can be built up by fresh air and sunshine and good food. Special educational facilities in this respect are provided by the MODERN HEALTH CRUSADE, an organization for children which teaches methods of living.

VIII. Most often infection of children comes from tuberculosis parents. This accounts for the saying that "consumption runs in families."

IX. A consumptive parent may pass the disease to a child by giving a kiss or by carelessness in spitting or sneezing.

X. Parents affected with tuberculosis should bear continually in mind the danger that menaces their children.

XI. Many tuberculosis parents do not know that they have the disease. This difficulty must be met by searching out undiagnosed cases, and warning the afflicted of their awful power to harm.

XII. One of the aims of the National Tuberculosis Association and its 1,000 affiliated state and local organizations, is to seek out and record all cases of tuberculosis. In this way much incipient disease among parents and playmates will be revealed, treatment will be taken in time and the lives of many children saved.

It is in this noble work, which is financed chiefly by the sale of Tuberculosis Christmas Seals, that your cooperation is asked.

## LITERBERRY.

The Chlo circle of Literberry Christian church will meet at the church this afternoon for the annual election of officers. This is an important meeting and it is hoped that there will be a good attendance.

Miss Ira Peterfish is a guest at the home of her sister, Mrs. Clyde Lewis in Prentice.

Miss Georgia Litter is visiting in Sinclair at the home of her sister, Mrs. Harry Martin.

Vaughn Dawson, son of Mrs. Lula Dawson of 316 Pine street, has gone to Upland, Calif., for an extended visit.

## BOARD OF EDUCATION CALLS SPECIAL ELECTION

People Will Be Called Upon to Vote January 15 on Question of Issuing \$135,000 in Bonds to Complete Contracts on New High School Building.

At an adjourned session of the board of education held Thursday evening, a resolution was passed calling for a special election on January 15, when the question of issuing bonds to the sum of \$135,000 will be submitted to the vote of the people. This action was taken after the board had gone carefully over the entire existing situation, and had come to the conclusion that in no other way can the emergency be met.

The session was held with President Lippincott presiding and all members present except T. V. Hopper and T. H. Rapp.

The meeting was called for the purpose of discussing the necessity of securing sufficient funds to pay off the existing contracts on the new high school building. There is now about \$30,000 remaining in the high school building fund, existing contracts call for the payment of at least \$155,000, and there is therefore a deficit of \$125,000. It is this amount which the board seeks to raise by the proposed bond issue. This is the only method by which the board can secure the additional funds necessary for the completion of the contracts.

One fact given emphasis was that should the board default in payment to the contractors, the latter would have the right to board up the building, withdraw unused supplies and bring suit against the district.

Members of the board expressed confidence that the people will not let this happen and will go to the polls on January 15 and vote yes to the proposition of issuing the necessary bonds.

## WOMAN'S CLUB WILL MEET TOMORROW

The regular monthly meeting of the Woman's Club will be held Dec. 11 at 2:30 p. m. in Music hall at Illinois Woman's college. Club members will please be sure to bring their membership tickets. Those who are not members may purchase guest tickets at the door or at Brown's Music store. There will be a brief business meeting, after which Mrs. Carl E. Robinson will sing a group of songs.

The executive committee is in charge of the meeting and arrangements have been made to fitly observe education week. Professor S. H. Clark, of the University of Chicago, will read Drinkwater's interesting play, "Abraham Lincoln."

The club considers itself most fortunate in being able to bring to its members such an eminent reader as Prof. Clark. Also the meeting is especially planned for the Woman's club, the executive committee has generously arranged to open the meeting to those who are not members by the purchase of guest tickets. This is an unusual opportunity to hear one of the best of modern dramas presented by one of the two or three great readers of the U. S., and the club is anticipating a large and enthusiastic meeting.

Edgar Masters and family were up to the city from Murrayville Thursday.

## ILLINOIS COLLEGE STARTS BASKET BALL

The Illinois College basketball team will start practicing next Monday night in the high school's gym. Since the regular college gym has been turned into a chemistry laboratory, there is a big question as to where the

college will be able to play its basketball games this year. Negotiations are now under way to obtain permission from the trustees of the Illinois Woman's College to use the college gym. If they are unable to make satisfactory terms, chances are that the college will have no team this year. Prospects for this year's team are the best the college has had for several years.

Besides seven men of last year's team, there are many promising looking freshmen and several other men of the upper classes who did not report last year. Those of last year's team who will be back again this year are: Andrew, Cully, Ambros, Melan, Davis, Ocke and Jones.

#### EAST STATE STREET

OPEN FOR TRAFFIC  
Paving Work on South Side of  
Street Has Been Completed—  
Now Busy With North Side.

George Wiseman, inspector for the East State street paving work, was happy to make the announcement Thursday morning that the south side of the street from Alley D to the railroad had been completed and that the street is open for traffic. It is possible now to enter the street from both Clay and Hardin avenues. The weather has been propitious for the work and although there have been several delays occasioned because of the lack of materials, the work has moved along in a very satisfactory way. The best fact of all is that the pavement which Contractor Williams has put down seems to fully stand inspection. The specifications have been fully complied with and in some instances more material has been used than the specification have required. Work was immediately begun in laying brick on the north side of the street and if favorable weather continues, in less than a week's time the whole of the much talked of pavement job will have been completed.

Favorite Lodge No. 376 Knights of Pythias at the regular meeting Thursday evening voted to take over the second floor of the building in which the lodge rooms are located, for club room purposes.

There was a large number of members present and the vote on the proposition was unanimous. Work will be commenced at once to remodel the rooms for use of the lodge.

Victor Ahlquist and Alex Murray were given the Rank of Esquire. The lodge now has a membership of 376 which is the lodge number. In celebration of this the lodge on next Thursday night will have an interesting program followed by light refreshments.

Plans also are under way for a class of forty candidates. It is the expectation that this class will be initiated on New Year's Day.

#### INJURED BY FALL

Mrs. Marie Mezo, who is employed at Jacksonville State hospital, became suddenly ill Thursday afternoon while on the east side of the public square. Mrs. Mezo fell to the pavement in such a way that a gash was cut in her head. She was carried to a nearby store and Dr. Hill, managing officer of the hospital, immediately sent an ambulance for her. The necessary medical attention was given at the hospital. Mrs. Mezo is a sister of Mrs. M. Crowe of Galtira avenue.

#### "SUNNY JIM" SCOFIELD DIES VERY SUDDENLY

Well Known Evangelistic Worker Passed Away Shortly After the Close of a Sermon—Buried in Peoria.

Many people in Morgan county will regret to know of the sudden death of Rev. James L. Scofield, known widely as "Sunny Jim." His funeral was held Wednesday in Peoria and the Bloomington Pantagraph gives the following statement of the services.

The funeral of James L. Scofield, was held at the Central Christian church, following a brief service at the residence. Rev. Cecil C. Carpenter, the pastor, was in charge and was assisted by Rev. Mr. McLaughlin, assistant pastor of the First Congregational church of Peoria, who was formerly at the Bloomington Y. M. C. A. as a religious educational secretary during the time that Mr. Scofield was general secretary during the term of the "Y." Rev. Mr. Carpenter prepared his sermon yesterday with the following eulogy of Mr. Scofield:

"Sunny Jim is dead." With what a sense of personal loss I write these words. Stricken in the pride of a happy, helpful manhood, he leaves behind him a wealth of memories that cluster around our hearts like the sacred incense hovered over the altars of Jehovah.

He fell with the harness on. Within fifteen minutes from the time he had finished an address last Saturday evening he was stricken and knew no more until he awakened from his dream of life yonder where the sun shines eternal.

I have known no manlier man than Brother Scofield. A good word for his friends, a smile for all he met, a supreme loyalty to his Christ, a hand outstretched to everyone, he went his way through the years leaving a trail of sunshine and good cheer.

Each time he took his seat in the church he looked at me and smiled and in that smile I read the prayer I knew was in his heart for him who preached and labored here. Every word he spoke was a word of good cheer that has helped to win the battle.

He went thru life with his head unbowed before sin, he captained his own soul nor let petty prejudice nor passion sway him from his calm faith in God. Blessed be his memory to those he loved and may the monument he reared in the hearts of his friends be their comfort.

I lay this tribute from a full heart upon the memory of my friend.

**The Most Precious Gift**

Of parents to the child is a healthful body. Only with it can one enjoy the blessings of life. There is only one way of keeping such a body. "KEEPING FIT," that is by keeping in REPAIR.

The successful farmer examines and repairs his machinery frequently, that he may get the best "RESULTS" from its use.

The auto is kept in repair that its use may add pleasure to the family life.

But, of the HUMAN MACHINERY, what? It may fall to pieces, be racked by pains and become a burden, and finally join in that great phalanx, 500,000 strong, who march to untimely graves every year—Who might live if they would just value the HUMAN MACHINERY as much as the auto, the plow, the horse.

Now is the time of year to have that body gone over and small defects repaired.

Mrs. M. C. Crowley, of Los Angeles, who says Tanlac completely restored her health after everything else, even change of climate, failed to help her in the least.

"I came to Los Angeles trying to regain my health, but I didn't get any better, even in this wonderful climate, until I began taking Tanlac," said Mrs. M. C. Crowley, who lives at 1401 South Hill St., Los Angeles, the other day.

"I was so weak and broken down that I was hardly able to get about at all. I suffered terribly after my meals on account of my food souring and gas forming in my stomach, and I would feel so tight that I could hardly get a good breath. My appetite left me and I was so nervous I couldn't stand the least noise and I never knew what it was to get a good night's sleep."

"I tried dieting for more than two years, but that didn't help me any, and I was continually getting worse all the time and actually lost twenty-five pounds in weight."

"All the different treatments and medicines I took failed to do me the least bit of good and I finally came to the conclusion that my condition would never be any better."

"I know from my personal experience with it that Tanlac is a good medicine, for as soon as I began taking it, I began to improve. Why, it is perfectly wonderful the way I have gained in strength, weight and every other way, and I now feel like a different woman entirely."

"I have a fine appetite and my nerves are in such perfect condition that I sleep soundly every night. I never suffer from sour stomach and gas forming after meals and, in fact, all my troubles have just gradually disappeared since taking Tanlac."

"I feel so thankful over my improvement that I am glad to have the opportunity to recommend Tanlac to everybody."

Tanlac is sold in Jacksonville by Coover Drug Co. and J. P. Shreve Drug Store and by the leading drug store in every town.—Adv.

**SENECA INDIANS MEET FOREIGN ENEMY**

European Corn Borer Upsets Time Honored Customs—Corn Crop is Quarantined.

Washington, D. C.—Once more the advance of the white man has come in conflict with the sacred institutions of the native rulers of our soil. There is indignation on the Cattaraugus reservation of the Seneca Indians lying about 30 miles southwest of Buffalo, N. Y. The European corn borer, a scourge imported from across the Great Waters where gun powder, fire water, derby hats, and all devastating influences originated, has come to infect their sacred maize. Corn is among the most revered products among Indians and is concerned with a number of their annual ceremonies including the green-corn dance, and the annual exchange of ears of corn among the various families and reservations. One of the council houses is in quarantine and the other is not.

The advent of the European corn borer brought a quarantine by the Federal Horticultural Board of the United States Department of Agriculture, which restricted the transfer of corn from one locality to another. The pest affected the taste of the corn, which the Indian likes to see waving erect, and caused it to droop. Members of the tribe who cling to early traditions blame the white man severely and some even attribute their trouble to a training school on the reservation which has brought innovations to upset the traditions of the red man. Nevertheless, once the pest is with them, they are determined to do all in their power to eradicate it. Thru their leaders, they have given full assurance that they will abide by the quarantine and comply with all regulations and extermination measures. Seneca Indians of western New York maintain a peculiar government, with council houses at Versailles and Red House. They claim their authority has been handed down from the original Six Nations, and that to a certain extent they are independent of either State or Federal control.

**CANTONMENT IS NOW BIG TRAINING SCHOOL**

Camp Funston Today Trains Men in Various Useful Lines—Attendance at School is Voluntary.

Camp Funston, Kansas.—(By The Associated Press)—This big cantonment, where thousands of young men received their training before going to France during the world war, is today humming with a variety of activities that would make the erstwhile doughboys, artillerymen and machine gunners blank with amazement. "Today camp Funston is not only training men to be soldiers, but it is also training them to be farmers, electricians, carpenters, automobile mechanics and clerical workers. There is also training for men who want to learn to operate movie pictures."

A farm where scientific farming and dairying methods are taught is part of the school work at camp Funston this year. A large herd of dairy cattle has been brought by the military authorities. The government dairy is reported on a paying basis.

Soldiers receive military training in the morning and do school work in the afternoon. Attendance at the school is voluntary, except in the case of illiterate soldiers, who are required to attend grammar school. There is also a high school course. These soldiers who do not choose to attend school are given military training in the afternoon.

More liberty is, of course, allowed the soldiers than was possible when every effort was being made to prepare men for the battle front.

## DRAW PETITION IN EFFORTS TO ALTER HIGHWAY

Woodson and Murrayville Road Boosters Organize to Have Route 3 Changed.

A petition signed by a number of good road enthusiasts of the Woodson and Murrayville communities, asking that the proposed hard road Route No. 3 be changed to run directly through Woodson, will be presented to state highway officials. At a meeting held in the town hall at Murrayville this was decided.

The route as announced by the state department of highways will pass a half mile west of Woodson, running through territory of several times less population than if routed the other way. Since the announcement of the highway department there has been rebellion in the ranks of the good roads boosters of Woodson, who believe that they should be given recognition.

Mr. Kennedy of Murrayville is in possession of the petition, and the string of names is growing daily. A. E. Nissen, official organizer of the Mississippi Valley Highway association, was present at the conference in Murrayville, together with the temporary good roads organization of that place, and a number of other interested citizens. Several members were taken in, and with the assistance of Mr. Nissen the body was made permanent.

The following officers were elected to serve one year: President—Harry Cade, Vice president—R. D. Mawson, Secretary—J. E. Thompson, Treasurer—Harry Strang. The Good Roads club of Murrayville will endeavor to obtain a new

## GIRLS REMAIN WITH TURKISH HUSBANDS

Taken Forebly in War Have Learned to Love Husbands and Want to Stay. Also Fear Hardships if They Return.

Samsoun, Asia Minor.—By the Associated Press.—Entente and American officials and relief workers entrusted with the task of restoring Armenian girls and women to their families have found that many of the girls who in the war were forcibly taken into harems and became the involuntary wives of the Turks and Arabs preferred to continue as Turkish wives, and were unwilling to leave their husbands.

They feared the hardships of life among fellow countrymen who knew of their servitude. Some of the girls became attached to their foreign husbands and said they liked the life into which they had fallen. Where the girls had children the problem was doubly hard.

The lot of some of the educated women and girls was much more pitiable than that of those who had enjoyed no advantages. American women relief workers found one case in Central Turkey especially perplexing. A girl who was graduated from one of the American mission colleges was taken captive in the early part of the war, and was Turkish official whose only wife had recently died took the Armenian girl into his home. His mother and children became much attached to the girl, whose superior education made her an important member of the community.

The Turk was very influential and thru the influence of the young Armenian saved Armenian refugees from persecution. He proposed to the girl and she finally married him. When the relief workers went to the Turkish home to find whether the young bride desired to be freed from her husband, there was consternation in the house. The Turk and his mother and children were devoted to the girl and begged the Americans not to force her to leave. The young wife had one child.

The relief workers talked to the Armenian wife privately and told her they would not insist upon her leaving if she wanted to stay. She told them she could not leave her child; that the Turk had been kind to her and she felt that by remaining in the village as the wife of its most prominent official she could be of greater assistance to Armenians than in any other way. The Turkish husband and his family were overjoyed when the Americans told them they would not take the girl away. He promised he would not take another wife and gave the Americans rugs and other gifts as an expression of appreciation.

## CLAUS TALKS BEFORE OAKLAND CAR DEALERS

J. F. Claus, the well known Oakland automobile dealer of this city, has returned from Chicago where he attended a gathering and banquet of dealers at the Congress hotel. When called upon for a talk Mr. Claus responded, and furnished car dealers of other cities with some facts regarding the auto selling business in his territory.

All the dealers attending the banquet were made aware of the fact that the Oakland company has reached a revival of business, and optimism was the watchword of the meeting.

The gathering was arranged only for Oakland dealers, and Mr. Claus was an invited guest. The hosts at the banquet were G. C. Ferris, manager of the retail branch on Michigan avenue and H. W. Cassleman, manager of the West Side branch of the Oakland business.

## REFUSE RELEASE OF GERMAN PLANES

Vienna.—The A. P.—The International Commission of Control has refused to release three German airplanes that flew here from Munich recently and the commission has ordered the destruction of aviation material which was to be used in an Austrian air service soon to be established.

The German planes were on their first flight in the postal and passenger service.

The commission held that these air services were in violation of the peace treaties.

## DUCK DINNER

This evening at six o'clock at Congregational church will be held the first Brotherhood meeting of the season. The banquet will be served in the new addition of the church just completed. Business of importance will be taken up and a large attendance of all the men of the congregation is urged to be in attendance.

E. H. Spain, who returned from a hunting expedition yesterday reports that he has sufficient game for a fine duck dinner. Following the banquet Prof. Francis Moats of Illinois College will address the membership on "Si-

## MANY COUNTRIES WILL PARTICIPATE

Chile Invites World to Take Part in Celebration of the 400 Anniversary of Discovery of Straits of Magellan.

Santiago, Chile.—By The Associated Press.—Thirteen countries have accepted the invitation of the Chilean government to send representative to participate in the festivities early in December commemorating the 400 anniversary of the discovery of the strait of Magellan.

The Spanish government will be represented by the Infante Don Fernando, of Bavaria, cousin of King Alfonso, and a suite of 20 persons.

Joseph H. Shea, United States ambassador to Chile, will represent the American government with the rank of special ambassador. In addition the United States cruisers Des Moines and Dolphin, under command of Rear Admiral Bryan, will form part of the naval pageant.

Great Britain will be represented by its minister in Chile, J. T. C. Vaghan, with the rank of special ambassador and like wise, it is said will send a naval representation.

Argentina, Brazil and Portugal will send special ambassadors as well as naval units. Venezuela, Panama, Uruguay, Salvador and Costa Rica will be represented.

An extensive social program has been arranged for the Spanish royal party during their stay in Santiago and Valparaiso, including a banquet by President Sanfuentes, receptions by various scientific societies and special exercises at the University of Chile.

In Punta Arenas, the festivities will include the unveiling of a monument to Ferdinand Magellan, the Portuguese explorer, who 400 years ago discovered the pass connecting the Atlantic and Pacific oceans; inauguration of port works and other public projects and many social entertainments.

The austral region of Chile was opened to civilization in 1843 when the government incorporated within its frontier what is now known as the territory of Magallanes comprising 192,000 square kilometres, part of which extends into northern Terra del Fuego. The territory has a population of 34,000 of which 22,500 live in Punta Arenas, center of the cattle raising and meat packing industries of the country, a prominent port and home of many millionaires.

## LAX LAWS ENABLE BOLSHEVIK TO WORK

Send Many Couriers to South America to Spread Propaganda—Come Thru Spanish Ports.

The Hague.—By The Associated Press.—Absence, in peace times of any strict control of immigration in most South American countries, makes it particularly easy. The Associated Press correspondent was told by a member of the Brazilian dip-

lomatic service, for bolshevik couriers, sent out of Moscow to reach South America.

Recent investigations by the correspondent in several countries of Central Europe have indicated that a continuous effort is being made, thru use of a courier and propaganda system that includes perhaps 25,000 Moscow paid workers, to spread the doctrine of bolshevism thru out the world.

In this effort, South and Central America are considered by the bolshevik not only as excellent fields for local "missionary work" along the lines of strikes and political unrest, but also as advanced field bases for promoting bolshevism in North America, where stricter immigration laws prevail.

At Lisbon and the Spanish ports, the Moscow government has established courier bureaus, particularly designed to handle agitators and propaganda en route to Brazil, Argentine, Chile, etc., and one of the four sub-bureaus directing the entire world force of agitators is understood to be located in Mexico or in one of the South American countries.

"So far as Brazil is concerned," a Brazilian diplomatist said, "the national constitution seems to prevent any serious efforts on this side of the Atlantic to weed out undesirable immigrants. In peace times, the country is free for every one, and we need immigrants, for our population is small compared with our huge area. Undesirables, such as bolshevik agitators, should be handled and jailed on arrival."

While South American officials in Europe are quite familiar with the fact that the soviet government is making a determined effort to spread its doctrines to South America, the view was expressed by one of them that bolshevism cannot thrive in agricultural countries, where private ownership of land is essential.

## MANY IMMIGRANTS GOING TO CALIFORNIA

Numerous Aliens from European Countries Now Traveling to Western Coast of U. S. According to Santa Fe Official.

Chicago.—Large numbers of immigrants from Europe are going to California, according to W. J. Black, passenger traffic manager of the Santa Fe system. He said they are mostly aliens who returned to Europe to fight for their native countries.

"The California bound immigrants are chiefly French, Italians and Greeks who are very good agriculturalists and find in the vineyards and orchards of California the best opportunity for their abilities," Mr. Black said. "Now that the war is over most of them are coming back and they are furnishing California with the largest stream of immigration I think it has ever had. This has been going on some six months and increasing slowly. I believe they average between 600 and 750 a month."

The immigrant trains that used to be run to Chicago before the war have not been resumed, Mr. Black said. One reason he said was that there were not enough immigrants to justify them, and another reason was that the Pullman tourist car was taking their place.

From information gathered from railroads here it does not appear that many immigrants coming west are settling on farms. Some plans are being considered by roads, P. W. Balligan, assistant to the supervisor of agriculture of the Chicago, Milwaukee & St. Paul railroad, reported, for assisting immigrants with funds to locate on farms on favorable lands in the northwest. It requires some money however for the immigrant to establish himself on his own land, and the observation at several railroads is that as a general thing immigrants arriving here are not so "overly burdened."

## OLD BOWERY MISSION NOW SHELTERS WOMEN

New York Haven for Destitute Men Now Cares for Women and Children — Educational Work Carried On.

New York. — (By Associated Press.)—At the old Bowery Mission, for more than four decades the leading lower East Side Haven for destitute drunkards, lecture classes in elementary sociology and philosophy and educational work among the ghetto's women and children are taking the place of or supplementing the work done there heretofore for men without homes or food.

"Flops and cats" as shelter and food are referred to by the old time denizens of the Bowery are no longer to be the chief solace afforded to "hon' heads" and "bums" by this famous old institution.

Directors of the famous place have acknowledged time for more than feeding and sheltering from night to night a horde of "floaters" and "boes." Since its establishment 41 years ago Bowery Mission Workers have been rushed with seemingly ceaseless efforts to find food and sleeping room for long lines of those classed as down and out. Now, they say, the advent of prohibition has brought opportunity to lift their heads.

John G. Hallimond, Mission superintendent, and Anson C. Baker, secretary, outlined the new situation. "There's still plenty of 'hootch' on the Bowery," they said, "and plenty of drinkers to care for. But it's harder to get than it used to be."

"We have almost as many men to look after as ever. When the saloon went it did not take with it drugs and the like. But a far greater percentage of them are sober — clear-eyed and clear-brained. We are increasing our educational work among the old timers whose heads used to be so steeped in liquor that they could retain nothing but the address of the Mission."

"We now have more opportunity to look around, a chance for educational work among women and to start at the bottom with the rising generation." Sixty-year old "Christian John" Wentz, a follower of the Mission for half his life and still hanging on, added his word to that of Mr. Hallimond and Mr. Baker.

"The bum business is dead," he said. "But if a guy had told me ten years ago that the day would come when there wasn't enough boes and cookies on the Bowery to keep this place busy, and that the Mission would decide to go to taking care of women and children, I'd have said he'd been 'coking' himself, or hitting the pipe."

## NATIONAL CONFERENCE OF PARKS IS CALLED

Need for State Parks to Be Chief Subject to Be Discussed at Des Moines Meeting January 10-12.

DES MOINES, Ia. — By the Associated Press. — A national conference on parks was called today by Governor Harding, co-operating with the Secretary of the Interior, to meet in Des Moines, January 10, 11 and 12. The need for state parks will be the chief subject to be discussed and the conference is the first national gathering ever summoned to plan a nationwide system of recreational areas can be established.

While more than 3,000 invitations to the conference are being distributed, Governor Harding wants it made clear that the attendance is not limited to persons specifically invited, for everybody interested in the conservation movement will be welcome. The invitation list includes governors of states, mayors of cities, park officials and leaders in conservation organizations.

The need for such a conference and the ground it should cover were explained by Secretary Payne in a letter to Governor Harding, in which he said:

"I have observed from time to time suggestions are made for the creation of National Parks out of scenic areas that for definite reasons should be taken up the states themselves, and there are undoubtedly many parks suggested to the state park authorities that should be taken up by counties and municipalities. Recently there has been a widespread desire on the part of state park authorities to confer among themselves and with the National Park Service, not alone on this question by regarding the possibility of securing uniform state park legislation throughout the country and the discussion of park problems in general. The requests for such a conference have become so insistent that it now seems a national necessity, promising the greatest results to the participants and the states they represent."

Secretary Payne suggested Des Moines as a meeting place for the conference because of the extraordinary results in the field of state park creation and development achieved by the State of Iowa under the public park act, from which the delegates can learn much.

Active co-operation of many states in the conference, notably California, Oregon, Colorado, Illinois, Indiana and New York, already has been secured by Secretary Payne and Stephen T. Mather, Director of the National Park Service, both of whom are expected to attend the Conference.

Among those who were in Jacksonville Saturday were Misses Maude Criswell, Blanche Harney, Dorothea Sargent and Alice Ross.

Clove Hunt and little daughter have had the grippe.

Miss Almeda Manley of St. Louis was called home Friday by the serious illness and death of her aunt, Mrs. Pamela Boulware. Mrs. Boulware suffered a paralytic stroke Friday afternoon.

Mrs. A. G. Rawlings was a Jacksonville caller Tuesday.

Mr. and Mrs. Chas. Bearup were in Jacksonville on business Monday.

Friday was the birthday of Charles McLamar and a few friends went in the evening to help him celebrate the event.

TO ESTABLISH COURT OF DOMESTIC RELATIONS  
Cleveland, O. — By the A. P. — A move to establish a court of domestic relations as a department of the common pleas court of Cuyahoga county was begun here following the election of Miss Florence E. Allen to the common pleas bench. She was elected over nine opponents by the largest popular vote ever given a candidate for the bench in this county her plurality being more than 11,000.

Miss Allen plans to retain her position as an assistant county prosecutor, to which she was appointed less than a year ago, until her judicial term begins January 1.

DISORDERS OCCUR IN AZORES ISLANDS  
Lisbon — Serious disorders have occurred in Angra do Heroismo, capital of St. Michael's Island in the Azores, because of the high prices of foodstuffs, especially milk, according to advices received here. The people raided the provisional stores and destroyed one dairy establishment. Troops were called and many shots were exchanged.

The governor of the island has sent in his resignation and at the same time asked that additional troops be sent, as those at hand were insufficient to maintain order.

## FOR X-RAY EXAMINATION

G. L. Tindall brought his little son to Passavant hospital yesterday for an X-ray examination. The little fellow is suffering with a rising in his head and the hope is to cure the trouble. Mr. Tindall says he lost one son from a similar complaint something over a year ago and he earnestly hopes this one can be saved. His numerous friends will join in the same desire.

## COLDS RELIEVED BY TURPO

The Turpentine Ointment That Gives Immediate Relief in All Cold Troubles and Congestion. Mothers Use it to Prevent Development of Children's Colds.

For several winters a large number of people, especially mothers of small children, have prevented the serious effects from neglected colds by using Turpo—the new Turpentine Ointment which, applied externally, drives a cold away overnight, relieves congestion of all kinds, and has valuable antiseptic properties.

There is nothing mysterious or secret about Turpo—it is a scientific combination of distilled Turpentine, Camphor and Menthol, in a salve or ointment which, being readily absorbed through the skin, carries the recognized and beneficial effects of these medicines to the root of the trouble. Turpo, applied up the nostrils at the first sign of a cold, relieves congestion and headache, clears the air passages, checking the cold at the very root, and

prevents its developing into more serious trouble.

Pneumonia and influenza may develop from a neglected cold—especially in children, and careful mothers are not using Turpo as a standard household application, to be used at the first sign of "sniffles" in the child. For severe colds, Turpo rubbed on the throat and chest gets under the skin, clearing up the congestion, without blistering the skin or staining the clothing.

Turpo is also of value to give relief in catarrh, hacking cough, sore throat and as an antiseptic application for cuts, wounds and burns. Ask your doctor or druggist about Turpo—they will confirm that it is a good, honest remedy.

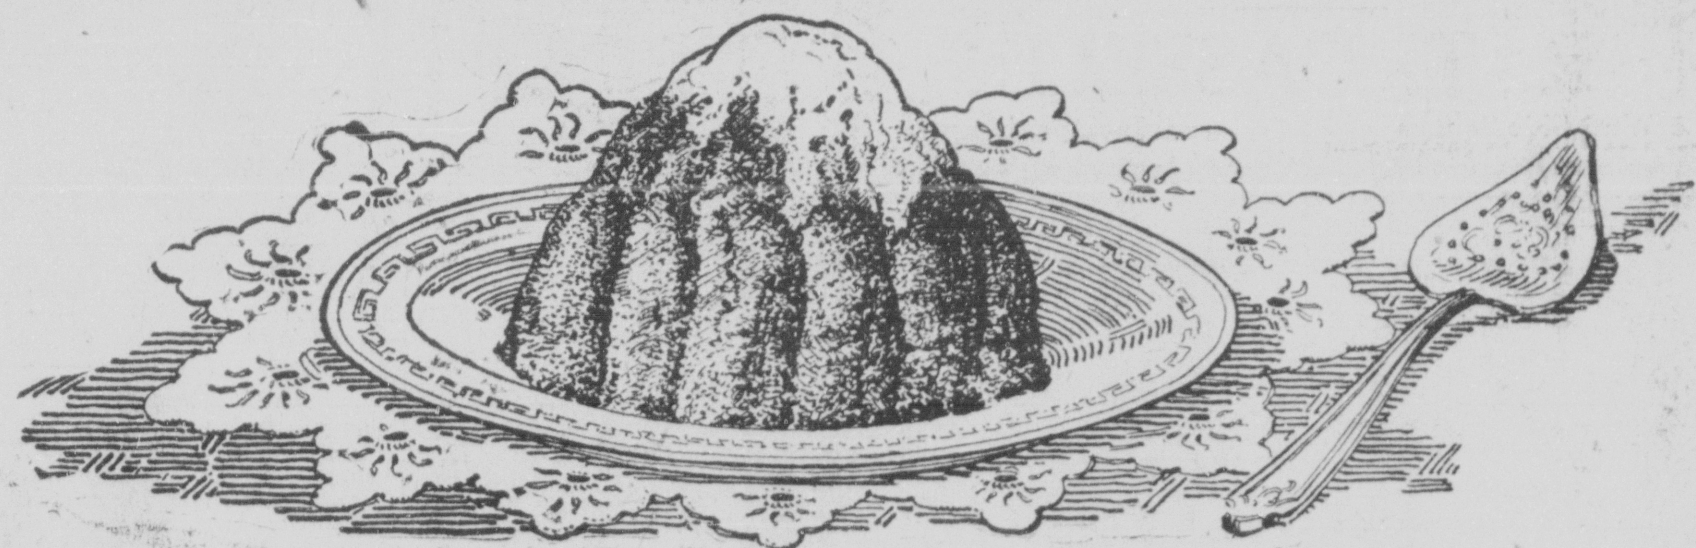

Sold in white opal jars with the orange and black label, 30c and 60c. Your money will be cheerfully refunded if you are not entirely satisfied.

# Kingnut MARGARIN

for people of taste

The fine, smooth texture and delicate flavor of Kingnut make it specially good for hard sauce.

## The Flavor You Would Pay More For

So smooth and luscious is Kingnut that you would gladly pay an extra price for it, if you had to.

But the fact is you can give your family this treat and at the same time save real money.

Use it at the table on bread, potatoes, griddle cakes, and in the kitchen for all kinds of cooking. It is a pure food in the most modern sense. It is high in calories, fine of texture, and always uniform.

A pound carton will convince you—order it today.

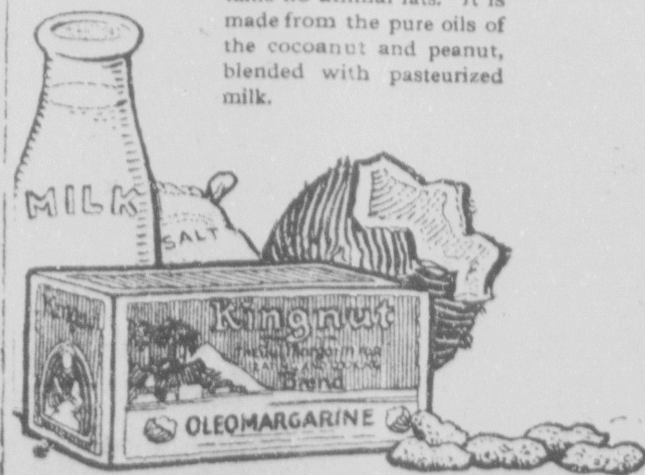

Kingnut is made and guaranteed by Kellogg Products, Inc., Buffalo, N. Y.

FOR SALE—West End Building  
Lots. Have you ever thought  
about how few there are left?  
Ten years ago between  
Church street and Webster  
Avenue, Grove street and La-

hundred desirable building  
sites to choose amongst. Today,  
how many? NOT A DOZEN.  
Go look for them. A year  
from now you can probably  
not find one. If you even  
wait until spring they will be  
scarcer and higher than now.  
By good fortune we have just  
two that we can sell, and at  
very reasonable prices; or we  
can exchange either of them  
for cheap rent properties. If  
interested please call in per-  
son. Don't phone. The John-

## ISSUES FIRE WARNING

AS CHRISTMAS NEARS  
State Fire Marshal John G.  
Gamber has warned merchants  
of Illinois against holiday fires.  
"Extensions of electric wiring  
for window or special displays  
should be made according to the  
national electric code," he said.  
"Haphazard extensions by means  
of lamp cord and the wrapping of  
light globes with tissues, paper,  
cotton, etc., should be avoided.  
"Rubbish and litter from un-  
packing stock should be prompt-  
ly removed.  
"A rule against smoking,  
either by employees or customers  
should be rigidly enforced.  
"Stores are full of inflam-  
mable decorations and crowded  
with shoppers at holiday time,  
and every precaution should be  
taken against fire to safeguard  
life as well as property."

## MANY WARSHIPS BUILT FOR AMERICAN NAVY

Report Just Made by Chief of Bureau of Construction and Repairs Shows Nearly 200 Warships Completed During Fiscal Year Ending June 30.

Washington—Nearly 200 warships, including one superdreadnaught and 96 destroyers, were completed for the American navy during the fiscal year ended last June 30 and more than 100 others, including eleven superdreadnaughts and six great battle cruisers, were building at that time.

This is shown in the annual report of Rear Admiral David V. Taylor, chief of the Bureau of Construction and Repair, to Secretary Daniels, made public today at the Navy Department. For continuing work on the ships building, Admiral Taylor estimated that \$19,000,000 would be required during the fiscal year beginning next June 30. This compares with \$53,000,000 last year and is the largest total ever proposed by the American navy in peace time for continuing construction. It is explained by the fact that work on many of the craft authorized in the 1916 building program was halted during the war.

Admiral Taylor's report also discloses that the Navy Department is engaged in developing and constructing new types of aircraft, including great rigid air ships and seaplanes similar to those which undertook the trans-Atlantic flight last year. Besides the dirigible which is building in England for the United States, the navy is building a dirigible at home.

Airplane and seaplanes building include four of the NC type for service with the battle fleet, making a total of eight of this class. In the four new craft now building are embodied the lessons learned from the trans-Atlantic flight.

The navy also is building a small number of interchangeable land airplanes, one to be of all metal construction.

"To provide a large seaplane for fleet use," says Admiral Taylor, "the bureau undertook the development of a design for a seaplane larger than any in existence, a 60,000 pound flying boat. The design embodies several new features, including metal bridge and a unique power plant of nine Liberty engines in three groups, each group being geared to a single propeller."

With the delivery of the superdreadnaught Tennessee this year by the New York navy yard, the first line battleships with the Atlantic and Pacific fleets were increased to eighteen. Besides the destroyers added to the fleet last year, other new ships completed included eighteen submarines, 45 eagle boats and ten mine sweepers. In addition a number of naval tugs were delivered.

Besides the eleven battleships and six battle cruisers building, there are under construction ten

scout cruisers, 71 destroyers, and 47 submarines. Some of the destroyers have been delivered since last June 30. Only two of the eleven battleships building are expected to be delivered next year, the Tennessee and Maryland. The Colorado is to be delivered in 1922 and the others in 1923 or later.

Admiral Taylor devotes part of this report to tests conducted with some of the German submarines turned over to the United States for experimental purposes and says on the basis of these tests that "on the whole these vessels could not be said to be superior in design and capabilities to corresponding vessels of the United States navy."

"This is a matter of interest," the admiral says, "in view of the exaggerated ideas of the German submarine prevalent during the war, when they were still a mystery."

## ARKANSAS WILL STOP NIGHT RIDING

Strong Sentiment Against Practice Throughout State—Burn Cotton Gins and Warehouses.

Little Rock, Ark.—Responsible sentiment in this state is running strongly against night riding which has been under-riding in this and other cotton growing states to prevent the ginning and marketing of cotton at the present low price. Representative planters, bankers and business men feel strongly that lawlessness is giving the south a "black eye."

At a recent meeting of the Arkansas division of the American Cotton association here night riding was condemned as an act of gross ignorance. Gov. Brough has taken a vigorous stand against night riding and he has had further support, among others, from Claude A. Baskin, president of the Arkansas Bankers association. All the forces of the state and local governments in Arkansas are now co-operating to prevent further lawlessness in the cotton ginning centers.

This counter movement is believed to be doing much to stop the activities of night riders. Mass meetings have been held in many towns and the co-operation of the citizens has been portended officers in maintaining order.

Acts of violence for which night riders have been given credit in Arkansas have taken various forms. In addition to the burning of gins, warehouses and other property, farmers who attempted to market their cotton. They have been threatened with death or severe punishment, and in some cases have been badly maltreated. Negro families have been intimidated and driven from their homes because they sought employment or worked as cotton pickers. Hundreds of cotton gins in various sections of the state have been posted with warnings against continuing to buy and gin cotton, the threatened penalties for not heeding the warning including destruction of the plants and forfeiture of the lives of the owners.

In one county eight men now are awaiting action of the grand jury on a charge of setting fire to a gin, and in another section of the state three white farmers have been sentenced to a year's imprisonment and assessed heavy fines for intimidation of negro cotton pickers.

## PROTEST AGAINST USE OF OLD MONEY

Cuban Currency is Worn to Shreds and is Public Menace—American Sells One Dollar Bills for Two Dollars.

Havana—Americans in Cuba have joined Cuban bankers and business men in making fresh complaint of the worn-out money in circulation here. Except silver, the only currency in use is American. It has been changing hands so often that it is tattered almost beyond the point of recognition, and health experts have declared that much of it is a public menace.

Bills that were once green are now brown and yellow. The edges are frayed and the best small bills obtainable even from banks is so frightfully filthy that if found in the States would be quickly called in and destroyed.

While the money in Havana is disreputable, it is fine compared with much in general circulation in the provinces. Physicians have protested on the ground that it spreads skin diseases, and they have advised patients to demand silver, even if a truck is needed to cart it around.

The story is told here of a traveling man from Georgia, who on a recent trip to the island brought 1,000 new one-dollar bills, which he sold to the natives at \$2 each. Many natives, however, refused to accept them on the ground that they were counterfeit. In some shops in Havana new American money is looked on with suspicion and not infrequently large, new bills are taken first to a bank to find if they are genuine.
